Elsevier

Author Index Volume 28

Abramowicz, A.E., see Kass, I.S. (28) 77
Aldridge, J.W., Walden, J.L. and Gilman, S.
Enhancing high-speed digitization of single-unit neuronal activity on a microcomputer using a hybrid software–hardware technique (28) 205
Amos, A., Armstrong, D.M., Harris, R. and Marple-Horvat, D.E.
A lightweight hybrid microdrive for use with awake unrestrained animals (28) 219
Armstrong, D.M., see Amos, A. (28) 219
Assaf, H., see Whittingham, T.S. (28) 83

Bendo, A.A., see Kass, I.S. (28) 77
Bickford, R.G., see Buzsàki, G. (28) 209
Brodie, M.S., see Mueller, A.L. (28) 15
Burgard, E.C., see Sarvey, J.M. (28) 109
Burkhardt, D.A., Gottesman, J. and Thoreson, W.B.
An eyecup slice preparation for intracellular recording in vertebrate retinas (28) 179
Buzsàki, G., Bickford, R.G., Ryan, L.J., Young, S., Prohaska, O., Mandel, R.J. and Gage, F.H.
Multisite recording of brain field potentials and unit activity in freely moving rats (28) 209

Clough, P.H., see Lye, R.H. (28) 1
Cottrell, J.E., see Kass, I.S. (28) 77
Czéh, G., see Somjen, G.G. (28) 35

David, P., see Eshhar, N. (28) 229
Decker, G., see Sarvey, J.M. (28) 109
Donahue, S.P. and English, A.W.
Use of formamide increases the number of detectable inputs to polyneuronally innervated mammalian skeletal muscle (28) 239
Dudek, F.E., Tasker, J.G. and Wuarin, J.-P.
Intrinsic and synaptic mechanisms of hypothalamic neurons studied with slice and explant preparations (28) 59

English, A.W., see Donahue, S.P. (28) 239
Eshhar, N., Lusky, M., David, P. and Teichberg, V.I.
A microtest plate assay of functional excitatory amino acid receptors (28) 229

Gage, F.H., see Buzsàki, G. (28) 209
Gao, X. and Sachs, F.
Improving performance of motorized slides for micromanipulation (28) 225
Gilman, S., see Aldridge, J.W. (28) 205
Goodman, J.C., see Simpson Jr., R.K. (28) 171
Gottesman, J., see Burkhardt, D.A. (28) 179
Greene, R.W., see Haas, H.L. (28) 71
Gutnick, M.J. and Yarom, Y.
Low threshold calcium spikes, intrinsic neuronal oscillation and rhythm generation in the CNS (28) 93

Haas, H.L., Greene, R.W. and Reiner, P.B.
The brain histamine system in vitro (28) 71
Harris, R., see Amos, A. (28) 219
Hollinden, G.E., Sanchez-Ramos, J.R., Sick, T.J. and Rosenthal, M.
MPP^+-induced pathophysiology demonstrates advantages of neurotoxicology studies in brain slices (28) 51
Hospod, F.E., see Newman, G.C. (28) 23

Ikeda, K., see Oda, Y. (28) 163

Kass, I.S., Bendo, A.A., Abramowicz, A.E. and Cottrell, J.E.
Methods for studying the effect of anesthetics on anoxic damage in the rat hippocampal slice (28) 77
Katsuda, S., see Oda, Y. (28) 163
Kelly, J.S., see Larkman, P.M. (28) 133

LaManna, J.C., see Whittingham, T.S. (28) 83
Larkman, P.M., Penington, N.J. and Kelly, J.S.
Electrophysiology of adult rat facial motoneurones: the effects of serotonin (5-HT) in a novel in vitro brainstem slice (28) 133
Liang, F. and Wan, X.S.T.
Improvement of the tetramethyl benzidine reaction with ammonium molybdate as a stabilizer for light and electron microscopic ligand-HRP neurohistochemistry, immunocytochemistry and double-labelling (28) 155
Lipton, P.
Regulation of glycogen in the dentate gyrus of the in vitro guinea pig hippocampus; effect of combined deprivation of glucose and oxygen (28) 147
Lucas, L.F., West, C.A., Rigor, B.M. and Schurr, A.
Protection against cerebral hypoxia by local anesthetics: a study using brain slices (28) 47
Lusky, M., see Eshhar, N. (28) 229
Lye, R.H. and Clough, P.H.
The applicability of brain slice methodology to the study of focal cerebral ischaemia in the rat: an evaluation (28) 1

Mandel, R.J., see Buzsàki, G. (28) 209
Marple-Horvat, D.E., see Amos, A. (28) 219
